Celebrating 25 years in business, Cables To Go is a leading manufacturer of IT, A/V and custom connectivity solutions. Winning business every day by satisfying our customers with unmatched service, Cables To Go has a lifetime warranty on all cables and free technical support for all products.

With more than 1,600 products ready to ship, Cables To Go can quickly deliver, regardless of how big or small your project is. Whether the cable you're looking for is on the shelf, or is a custom order, we only use the finest components and the latest technology to optimise performance and ensure compliance to industry specifications.

Cables To Go's Commitment To Their Partners: We are committed to helping our partners provide unique products, while providing unparalleled service and value-added solutions.

Custom Solutions

Cables To Go has been creating custom cables for over two decades and has perfected the elements necessary to meet our customers' cabling needs: quality, flexibility, service and competitive pricing. Cables To Go brings a consultative approach to engineering custom cables, utilising CAD drawings and rapid prototyping to help determine your specific application requirements. All custom cables are backed by a lifetime warranty against defects in workmanship. Call Cables To Go today for assistance with your next custom cable project 0800.328.2916.

Distributors & Resellers

Cables To Go products are widely available through distribution. Our close relationships with the industry's top distributors mean many of our products are just a day or two away from your doorstep. All of our packaging is minimal to keep costs down, while enabling Cables To Go resellers to customise the final solution. Cables To Go is actively seeking new VARs, Integrators, Installers, and OEMs. Go to www.cablestogo.co.uk to learn more about the exciting opportunities Cables To Go offers.

Terms & Conditions

Prices are subject to change without notice. Custom ordered products are non-returnable and cannot be cancelled. Shipping discrepancies must be reported within five days of receipt. Call our customer service department at 0800.328.2916 for more information.

Warranties

In addition to individual manufacturers' warranties, Cables To Go offers a lifetime guarantee against defects and labour on all custom and distributed cables. Other distributed products such as switch boxes and computer accessories carry a full, one-year warranty against defects. Warranties do not apply to damage from misuse or consequential damage. Our warranty liability will not exceed the purchase price of a product. Cables To Go assumes no liability for damage and/or injury resulting from use of equipment supplied by this company, including the loss of data.

Live Chat

- Provides The Total Solution
- Fast, Complete A/V System

Applications:

- Education
- Corporate
- Home Cinema
- Broadcast
- Transportation
- Hospitality
- Healthcare
- Recreation Centres

What is RapidRun®?

RapidRun is the most complete audio/video cabling system – built to save installation time, accommodate changes, and reduce the likelihood of return service calls due to faulty field terminations.

How it works

Putting an end to restrictive cabling and time-consuming installation, the genius behind RapidRun starts with the Runner – the main base cable that runs through walls, rooms and fixtures. To expand its flexibility, multiple signal types can be supported over your choice of Runner cable – such as VGA, Composite Video, S-Video, Component Video, or HDMI™ and DVI. Just select the Flying Leads that are right for your A/V application, connect the Break-Away to the Runner and with a twist, your termination is complete.

Note: Wall Plate terminations will be available in 2010.

NEW & COMING SOON PRODUCTS

4-Port USB 2.0 Aluminum Hub

81648

Our aluminum hub conveniently adds four high speed USB 2.0 ports to your desktop or laptop computer. The slim form factor saves space while the port placement and hard-mountable metal base keep the hub in place even when several USB devices are connected. The removable aluminum base can be hard-mounted to your desk. The hub easily slides from that base, and makes it convenient for travel as well. This hub can be self-powered from the USB port, or utilise the included AC power supply adapter. Downstream ports have automatic connect and speed detection plus overcurrent protection with auto recovery. Add additional hubs to daisy-chain up to 127 devices; this hub delivers high speed data transfers up to 480 Mbps.
