

MODULAR A/V CABLING SOLUTIONS

RapidRun® is the most complete audio/video cabling system – built to save installation time, accommodate changes, and reduce the likelihood of return service calls due to faulty field terminations.

RapidRun was designed to evolve with your constantly expanding needs. This revolutionary system pioneered a Break-Away Flying Lead, providing the reliability of a factory termination in the field.

Putting an end to restrictive cabling and time-consuming installation, the genius behind RapidRun starts with the Runner – the main base cable that runs through walls, rooms and fixtures. To expand its flexibility, multiple signal types can be supported over your choice of Runner cable – such as VGA, Composite Video, S-Video, Component Video, or HDMI™ and DVI. Just select the Flying Leads that are right for your A/V application, connect the Break-Away to the Runner and with a twist, your termination is complete.

RapidRun is the fast, complete A/V cabling system.

MODULAR A/V CABLING SOLUTIONS

RapidRun® Runners

Imagine pulling a VGA cable through 30mm conduit and not worrying about all those small pins when you're done. Even better, imagine switching the installed cable from VGA to Component Video or switching DVI to HDMI™ in less than a minute. RapidRun makes these scenarios a reality. Never before has an interconnect system offered such adaptability.

RapidRun® Multimedia Runner Cables

87011

The high performance, fast, complete in-wall solution for multimedia applications

The Multimedia Runner is the ideal solution for in-wall installations that support audio and video entertainment or presentation applications. Whether mounting a flat panel display in your living room or hanging a projector in a classroom, a clean, crisp signal can be ensured.

- Connectors include a protective pulling cap capable of 13.6kg of pulling tension
- (5) 28AWG 75-Ohm mini-coaxial cables
- Coaxial lines feature a 90% shield copper braid for maximum flexibility while protecting against EMI/RFI
- CL-2 rated for in-wall installations
- Colour-Code: Blue

Item#	Description	RRP
87011	3m RapidRun Multimedia Runner	£31.99
87012	5m RapidRun Multimedia Runner	£34.99
87013	7m RapidRun Multimedia Runner	£42.99

87018	40m RapidRun Multimedia Runner	£104.99

RapidRun® PC Runner Cables

87000

The high performance, fast, complete in-wall solution for PC based applications

The PC Runner is the ideal solution for in-wall installations that support computer based applications. Whether hanging a projector in a modern 21st century classroom or installing a commercial digital signage system, a clean, crisp signal is ensured.

- CL-2 rated for in-wall installations
- Supports resolutions up to 1600 x 1200
- Connectors include a protective pulling cap capable of 13.6kg of pulling tension
- (4) 24AWG shielded twisted pairs with drain wire, (1) 24AWG twisted pair, (5) 24AWG conductors
- Mylar® foil shield
- Colour-Code: Yellow

MODULAR A/V CABLING SOLUTIONS

RapidRun® Runner Test Adapters

87085

87086

Enables a quick continuity check of the Runner cable prior to sealing it within a wall

The RapidRun Runner Test Adapters have been designed to allow an installer to run a quick continuity test of the Runner prior to leaving the job site, ensuring proper functionality. These test adapters include two pieces: a modified RapidRun connector that connects to the display end of the Runner and an RJ45 adapter cable that connects to the input of a common network cable tester.

- Includes a modified RapidRun connector and RJ45 adapter cable
- Colour-coded for easy identification
- Provides a quick continuity check of your Runner cable prior to sealing it within a wall
- 1 year warranty

Item#	Description	RRP
87085	RapidRun PC Runner Test Cable- Yellow	£15.99
87086	RapidRun Multimedia Runner Test Cable- Blue.....	£15.99

RapidRun® Runner Extension Cables

87026

Extra length for multimedia and PC applications without replacing the previously installed Runner

Common applications for RapidRun extension cables include home entertainment, digital signage, education and SOHO/large office productivity.

- Available in CL-2
- Connectors include a protective pulling cap capable of 13.6kg of pulling tension
- Colour-Code: Yellow or blue

Item#	Description	RRP
87022	1m RapidRun PC Runner Extension Cable.....	£24.99
87023	2m RapidRun PC Runner Extension Cable.....	£27.99
87024	3m RapidRun PC Runner Extension Cable.....	£31.99
87026	1m RapidRun Multimedia Runner Extension Cable	£24.99

87028	3m RapidRun Multimedia Runner Extension Cable	£31.99

RapidRun® Runner Couplers

87082

87080

Customise installations in the field for time savings

The future is always difficult to predict and so often the same goes for your customers. As projects are modified or upgrades are required, your customers deserve effective solutions to accommodate their existing cabling system. Now you can offer two easy to use solutions. The Male-to-Male Coupler is designed to connect two RapidRun Runners together to go the distance you require. RapidRun Female-to-Female Couplers are the solution for connecting two Flying Leads together without the need for a Runner, allowing the user to easily create custom length patch cables in the field.

- Two versions are available:
- 12-Pin option for RapidRun Multimedia (Blue) applications
- 15-Pin option for RapidRun PC (Yellow) applications
- Use two Runners to get the length you require
- Use the 12-Pin option for RapidRun Multimedia (Blue) applications and the 15-Pin option for RapidRun PC (Yellow) applications
- Exclusively for indoor use

Item#	Description	RRP
87080	RapidRun Multimedia 12-Pin DIN Coupler Male/Male.....	£9.99
87081	RapidRun PC 15-Pin DIN Coupler Male/Male	£9.99
87082	RapidRun Multimedia 12-Pin DIN Female/Female Coupler	£9.99
87083	RapidRun PC 15-Pin DIN Female/Female Coupler	£9.99

RapidRun® Runner Coupling Rings

87088

Replacement Coupling Rings for PC (yellow) and Multimedia (blue) Runners

Two coupling rings are provided with every PC (Yellow) and Multimedia (Blue) RapidRun Runner cable for connecting the Break-Away termination. This replacement 2-pack is available for the times when those rings are lost or misplaced.

- After Installation, remove the pulling cap from the Runner Cable
- Attach the Coupling Ring to the Runner Cable. Each end of the Coupling Ring has different threads. The knurled end will face away from the cable.
- Connect the Break-Away Flying Lead to the Runner Cable via the Coupling Ring.

Item#	Description	RRP
87088	RapidRun UXGA and 5-Coax Runner Coupling Ring 2PK	£3.99

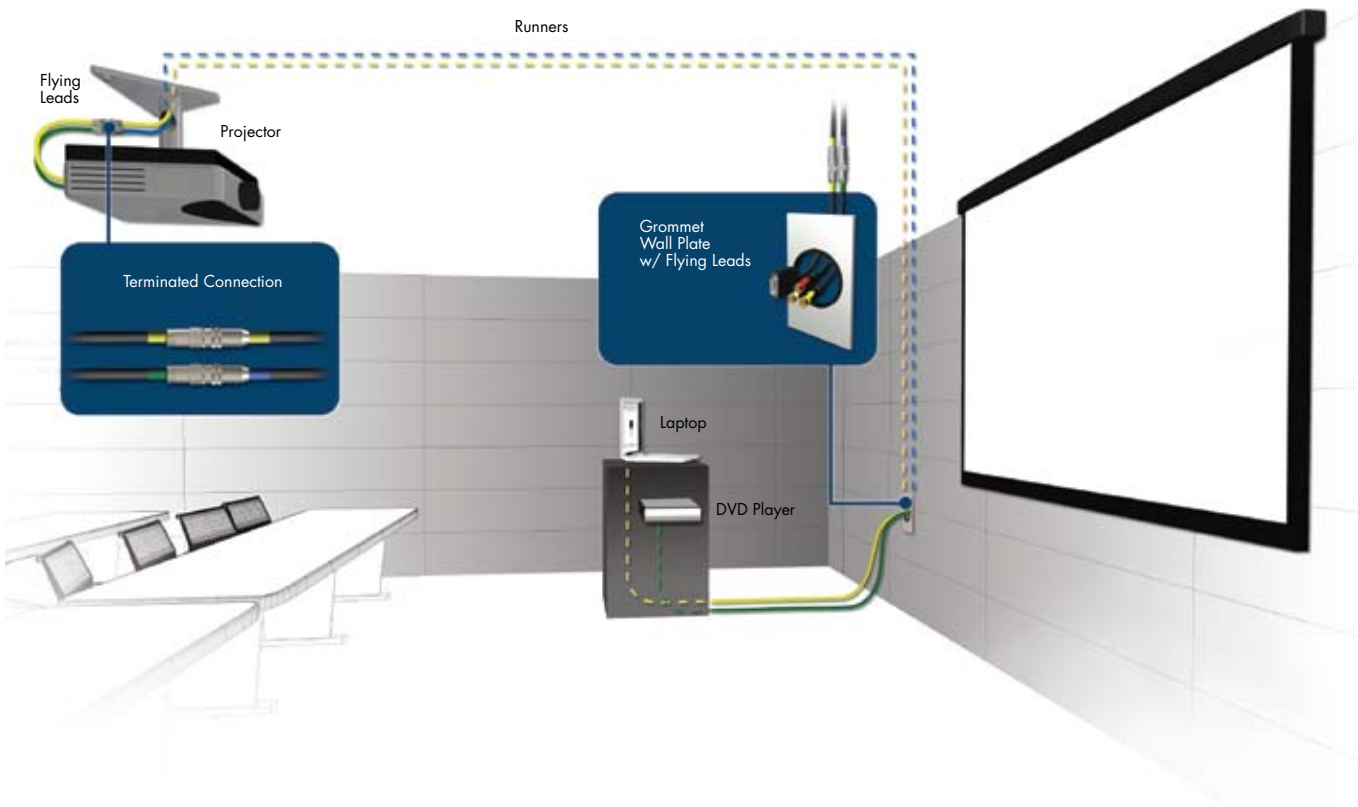

MODULAR A/V CABLING SOLUTIONS

RapidRun® Break-Away Flying Leads

Break-Away Flying Leads ensure flexible, efficient, high quality connections for all types of equipment. Whether hanging a projector in a classroom or installing a commercial digital signage system, a clean, crisp signal is ensured. RapidRun has evolved to meet the needs of the installation crews who use it everyday.

To ensure quick and easy configurations, the RapidRun Runners are colour-coded: Blue Break-Aways are only compatible with blue Multimedia Runners, Yellow Break-Aways are only compatible with yellow PC Runners, Green Break-Aways are compatible with both yellow PC Runners and blue Multimedia Runners and Red Break-Aways are only compatible with red High Speed Digital Runners. After you have selected the right Runner for your job, choose two Break-Away Flying Leads to complete the solution.

With three Runner cable options, we offer nearly limitless capabilities and the highest performance – with over 20 configurations that allow you flexibility for your unique application. For added protection, the Runner cables are terminated with female connectors to eliminate the chance for fatal damage to a pin during installation. For effortless connection to the Runner, Break-Away terminations are finished with a male connector. All you need to do is align the red arrows to guide the connectors together and tighten the knurled locking ring. It's that simple!

RapidRun® Component Video + Audio Break-Aways

87055

Conveniently wire component video and audio using a single cable run

Common applications for Component Video + Audio Break-Aways include education and home entertainment.

Item#	Description	RRP
87049	.5m RapidRun 3-RCA + SPDIF Flying Lead (blue)	£15.99

87038	RapidRun RGBHV HD15 Micro-Flying Lead 12-Pin (blue).....	£12.99

RapidRun® HD15 + Stereo Audio Break-Aways

87040

Ideal for use with displays requiring HD15 video and stereo audio connections

Common applications for RapidRun extension cables include home entertainment, digital signage, education and SOHO/large office productivity.

Item#	Description	RRP
87040	.5m RapidRun HD15 + 3.5mm Audio Flying Lead (yellow).....	£14.99
87041	2m RapidRun HD15 + 3.5mm Audio Flying Lead (yellow).....	£17.99

RapidRun® HD15 + 3.5mm + 3RCA Flying Lead

87076

Use one Runner to simultaneously connect PC Video, 3.5mm stereo audio/video, composite audio/video and 3RCA signals

These particular Flying Leads cut installation time and cost by allowing you to send PC Video, 3.5mm Stereo Audio, Composite Audio/Video and 3RCA over one cable.

- Supports transmission of RGBHV signals (does not support Data-Bit transmission), 3.5mm stereo audio and composite audio/video (3RCA)

Item#	Description	RRP
87076	RapidRun HD15 + 3.5mm + 3RCA Flying Lead (yellow).....	£25.99

RapidRun® 5-BNC Break-Aways

87043

Ideal for use with displays requiring an RGBHV video connection

Common Applications for 5-BNC Break-Aways include education and SOHO/large office productivity.

Item#	Description	RRP
87043	.5m RapidRun 5-BNC RGBHV Flying Lead (yellow or blue).....	£19.99

MODULAR A/V CABLING SOLUTIONS

RapidRun® Component Video Break-Aways

87052

Ideal for uses with applications requiring a component video connection

Common applications for Component Video Break-Aways include home entertainment and education.

- Supports up to 1080p
- Fully molded connectors provide excellent strain relief

Item#	Description	RRP
87052	.5m RapidRun 3-RCA (RGB) Flying Lead (yellow or blue).....	£15.99
87053	2m RapidRun 3-RCA (RGB) Flying Lead (yellow or blue).....	£20.99

RapidRun® Composite Audio/Video Break-Aways

87061

Ideal for use with applications requiring a composite audio/video connection

Common applications for Composite Audio/Video Break-Aways include home entertainment and education.

Item#	Description	RRP
87061	.5m RapidRun 3-RCA (YRW) Flying Lead (yellow or blue).....	£15.99
87062	2m RapidRun 3-RCA (YRW) Flying Lead (yellow or blue).....	£20.99

RapidRun® S-Video + Composite Audio/Video Break-Aways

87058

Ideal for use with any application where S-Video, composite video and dual channel audio signals are desired

Common applications for Component Video + Audio Break-Aways include home entertainment and education. Fully molded connectors provide excellent strain relief. RCA connectors are colour-coded yellow, red and white for composite and stereo audio.

Item#	Description	RRP
87058	.5m RapidRun 3-RCA (YRW) + S Flying Lead (blue)	£15.99

RapidRun® Dual Stereo Audio Break-Away

Ideal for use with whole house audio distribution systems or to transfer two channels of audio over one cable

87068

Common applications for Dual Stereo Audio Break-Aways include home entertainment and education.

Item#	Description	RRP
87068	.5m RapidRun Dual Stereo Flying Lead (blue).....	£15.99

MODULAR A/V CABLING SOLUTIONS

RapidRun® Digital

RapidRun Digital is designed to be the standard for in-wall digital audio/video installations. The RapidRun system allows for a customised installation to create an ideal audio/video solution. Break-Away Flying Leads ensure flexible, efficient, high quality connections for all types of equipment. RapidRun Digital is capable of supporting 1080p video signals and crystal clear audio.

RapidRun® Digital High Speed Runner Cables

87530

The high performance, fast, complete in-wall solution for HDMI™ and DVI-D

Common applications for RapidRun Digital Runners include home entertainment, digital signage, and education.

- CL-2 rated for in-wall installation
- Supports HDMI and DVI-D high resolution video up to 1080p
- Connectors include a protective pulling cap capable of 13.6kg of pulling tension
- (4) 24AWG shielded twisted pairs with drain wire, (1) 24AWG twisted pair, (5) 24AWG conductors
- Mylar® foil shield and tinned copper braid overall
- Colour-Code: Red

87536	20m RapidRun Digital High Speed Runner.....	£187.99

RapidRun® Digital High Speed Active Flying Leads

87540

Connect to equipment with high quality HDMI™ and DVI terminations

Active Flying Leads ensure flexible, efficient, high quality connections for all types of equipment. They are the perfect complement for the Digital Runner when distances of 10m or more are needed. It is most commonly used when connecting an HDTV to different source devices (i.e. cable box, DVD player, video game system) that are 10m or more away from the display. Whether hanging a flat-panel TV in a home or installing a commercial digital signage system, a crisp, clean signal up to 1080p resolution can be counted on every time.

- Supports HDMI and DVI-D high resolution video up to 1080p
- Compatible with Digital Runners
- Mylar® foil shield and tinned copper braid overall
- Active Flying Leads are used on the source end of the Digital Runner on systems 10m or longer
- 1 year warranty

Item#	Description	RRP
87540	2m Digital High Speed HDMI Active Flying Lead (red).....	£132.99
87544	2m Digital High Speed DVI Active Flying Lead (red).....	£132.99

RapidRun® Digital High Speed Passive Flying Leads

87542

Connect to equipment with high quality HDMI™ or DVI terminations

Passive Flying Leads ensure flexible, efficient connections for all types of equipment. They are great for use with the Digital Runner when distances of 7m and under are needed.

- Supports HDMI and DVI-D high resolution video up to 1080p
- Lifetime warranty

Item#	Description	RRP
