

## RapidRun™ (Grommet Pass Through) Wall Plate

Provides Cable Pass Through Wall Plate Access

RapidRun™ is designed to be the standard for in-wall audio/video installations. The RapidRun system empowers you to customise your installation to create your own ideal audio/video solution. Break-away flying leads and wall plates ensure flexible, efficient, high quality connections for all types of equipment.

Ideal for educational and institutional installations, these wall plates provide in-wall pass through cable access. It is commonly used as a teacher's station input to a ceiling mounted display (projector) utilising corresponding flying lead accessory connections. Constructed from aluminium for durability, this wall plate enables the integrator to professionally route pass through cables inside the surface mount or electrical box.

Please Note: Each complete RapidRun solution requires a break-away flying lead or wall plate to terminate each end of the runner cable. For each runner you will need (2) break-away flying leads, (2) wall plates, OR (1) break-away flying lead and (1) wall plate.

### Features:

- Insulated grommet access coverage
- Manufactured from high grade materials
- Fits standard single gang back box
- Faceplate mounting hardware included
- No field termination is required
- Lifetime Warranty

### Applications:

- Perfect for Education & Healthcare A/V interconnect applications, including: Classrooms, conference rooms, auditoriums and digital signage
