

## TruLink® 4-Port HDMI® Splitter with HDCP™

1080p – Split one HDMI audio/video signal to four high definition displays

The TruLink 4-port HDMI splitter connects an HDTV receiver, DVD player or other audio/video device to up to four HDTV displays equipped with HDMI inputs. This splitter supports HDMI Standard Speed features of Deep Color, x.v. color™, high speed refresh rates and lossless multichannel surround sound. It is HDCP-compliant for full playback of high definition content. This splitter is designed to support 480i, 480p, 720p, 1080i and 1080p resolutions. This splitter supports 3D, allowing you to split a signal from a 3D device to multiple 3D displays.

Cascadable up to three layers, one output may be used to distribute the source signal to as many as 64 displays. The built-in equalizer boost the signal to allow cascading up to 45 metres away.

### Features:
