

TruLink® 2-Port UXGA Monitor Splitter/Extender with 3.5mm Audio

Split your video and audio signal to two outputs - up to 64 metres!

The TruLink 2-Port Monitor Splitter is a brilliant choice for distributing audio and video to classrooms, exhibits, tradeshow, demonstrations and multimedia presentations. This monitor splitter broadcasts your computer's audio and video output to two destinations. Daisy-chain more than one splitter to expand the number of monitors and speakers you can reach. With the built-in video signal enhancement, you can place monitors up to 64 metres away while maintaining your video quality.

Use the 3.5mm audio outputs to drive either speakers or earphones. Suitable for XGA, SVGA, VGA, and MultiSync® resolution monitors. From use in test bench facilities, data centers and help desks to video broadcasting, our splitter/extender delivers both performance and value.

Features:

- Broadcast your computer's audio and video outputs to multiple monitors
- Daisy-chain splitters to expand number of monitors and speakers
- Built-in video signal enhancement allows monitors to be placed up to 64 metres away
- Use the 3.5mm audio outputs to drive either speakers or earphones
- Input: (1) HD15 Female
(1) 3.5mm Stereo Female
- Output: (2) HD15 Female
(2) 3.5mm Stereo Female
- Free technical support
- One year warranty
