

TruLink® 2-Port DVI-D Splitter with HDCP™

Split one DVI-D output for display on two DVI-D compatible monitors

The TruLink 2-Port DVI-D splitter connects two HDTV displays or two computer monitors equipped with DVI inputs. HDCP compatibility means this splitter will work with high definition video for HDTV applications and high resolution PC applications. Compatible with DVI-D equipped PC video cards operating at a maximum resolution of 1920x1080 pixels, or with video devices at 480p, 480i, 720p, 1080i, and 1080p scan rates. Built-in DVI repeater allows lossless runs up to 10 metres from the splitter.

Features:

- Broadcast your HD devices to multiple HD displays
- Compatible with DVI-D equipped PC video cards
- Operate at a maximum computer resolution of 1920x1080 pixels
- Built-in DVI repeater allows lossless runs up to 10 metres from the splitter
- Input: (1) 24-pin DVI-D Female
- Output: (2) 24-pin DVI-D Female
- Free technical support
- One year warranty

Features:

- Perfect for home or office monitor splitter applications, including: digital signage, conference rooms and classrooms
