

## TruLink® 2-Port HDMI® Splitter

Up to 1080p resolution and HDCP™ compliant; split one HDMI audio/video signal to two high definition displays.

Connect an HDTV receiver, DVD player or other audio/video device, even 3D products, to two HDTV or 3D displays. Our TruLink HDMI splitter supports a full range of video resolutions from 480i to 1080p. This splitter supports 3D, allowing you to split a signal from a 3D device to multiple 3D displays. The splitter is cascadable up to three layers. The built-in equalizer boosts the signal to allow cascading up to 45 metres away.

### Features:

- Broadcast your HDMI device's outputs to multiple displays
- Cascadable up to three layers
- Built-in video signal enhancement allows monitors to be placed up to 45 metres away
- Supports HDMI 3D allowing connection from one 3D source to multiple 3D displays
- Input: (1) HDMI Female
- Output: (2) HDMI Female
- Free technical support
- One year warranty

### Applications:

- Perfect for office HDMI splitter applications, including: digital signage, conference rooms and classrooms
